Shire of Tammin  
1 Donnan St  
Tammin WA 6409

21 March 2024

Dear Joanne and Tammin Shire Councillors

I am writing on behalf of the Tammin Golf Club to ask for assistance with the finishing off of the new clubhouse that has been erected at the Golf Club. The building is almost complete and will be ready to welcome players in the upcoming season. We are seeking assistance with the cost of filling the space between the building and the existing concrete veranda on the south and east sides of the building. This will allow the building to be safe for the public. At this stage, the Golf Club has spent approximately \$40 000 on the build and we are very grateful for the support that the shire has given to us so far. We are seeking half of the required amount which would be \$2 125.

I have attached the quote we have been attained for your perusal.

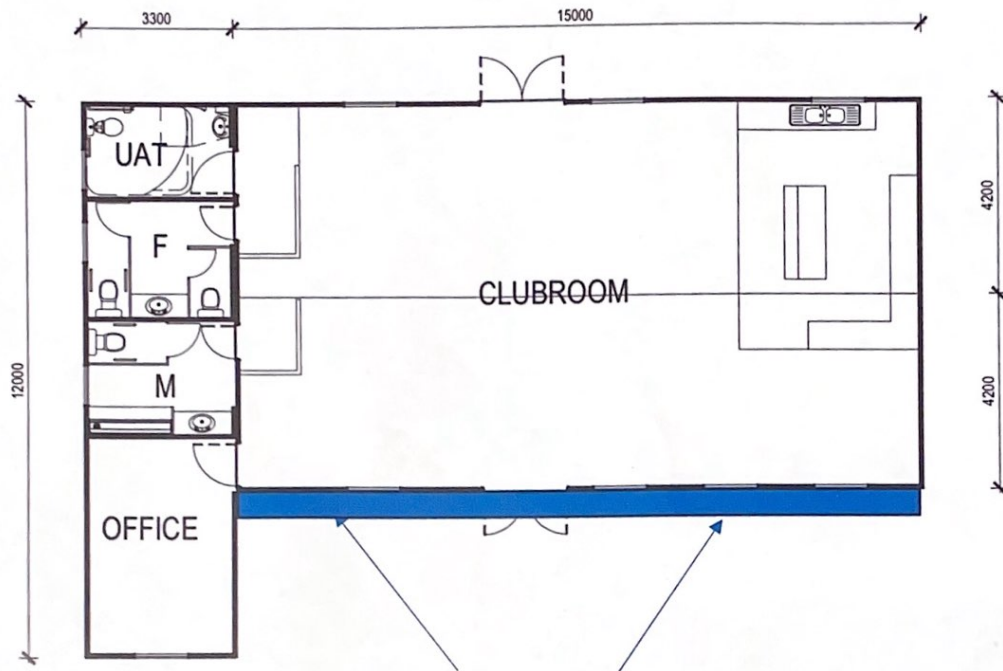

Yours sincerely

Libby Hutchinson  
Tammin Golf Club

## TAMMIN GOLF CLUB INC.

A building solution to address the 'void' area between the new building and the existing concrete veranda. This is an area of 15M X 500mm. This area is indicated in the below drawing,

The area is 550mm wide, 15M in length and 500mm deep.

The brief is to fill the void area with suitable aggregate and to finish by installing a drain to remove water and pave the area.

Critically the fill aggregate must not contact any of the building structure to ensure building integrity is maintained.

### Proposal

- To instal a suitable timber structure to prevent aggregate from contacting building structure
- To backfill layers of 200mm of sand aggregate, compacting as filled
- Final 100mm to be granite 'cracker dust'
- A 100mm wide grate style rainwater drain to be installed along the 15M building frontage
- A 400mm X 400mm paver to be layed to provide professional finish.

**Quote provided by Felix Jarquin Including materials to complete work as above = \$4250.00.**

This information supports the letter to Tammin Shire requesting assistance to finalise the building installation.
