Shire of Tammin
Attn: Planning Department
Via email: shire@tammin.wa.gov.au

Dear Sir/Madam.

Upgrade works to mobile phone base station at 8021 Goldfields Road South Tammin WA 6409

I am writing on behalf of Telstra to inform you of an upgrade to the mobile phone base station at the above address. This proposal does not require Development Approval and consultation is being undertaken in accordance with the requirements of Section 7 of the *Mobile Phone Base Station Deployment Code 2018*.

Site Location

The upgrade consists of the addition of 4G equipment. The proposed equipment includes Installation of three (3) new 4G antennas and three (3) remote radio units upon the existing lattice tower. Furthermore, the works includes ancillary items such as cabling and in-shelter works.

We invite you to provide us with your feedback about this proposal. You can do this by contacting us by letter, email or by calling the contact number outlined below. We will accept comments on the proposal until 10 December 2021.

We trust that you will find the information about this proposal informative. We are happy to provide you with more details.

Yours sincerely

Patrick Armstrong
Town Planner
Visionstream Pty Ltd (On behalf of Telstra)

Attached: EME Report

Frequently Asked Questions

Where is it being installed?	8021 Goldfields Road, South Tammin WA 6409
What is being installed and how big will it be?	Installation of three (3) 4G antennas and three (3) remote radio units upon the existing lattice tower as well as ancillary items such as cabling and in-shelter works.
Does it require Council approval?	This installation is exempt from Local & State Government approval in accordance with <i>Telecommunications (Low-impact Facilities) Determination 2018 Schedule- Facilities and areas Part 1 Radio facilities, item 3,(a) & (b) (i) &(ii); Item 4 (a),(b) and (c) (i) & (ii) Telecommunications Act 1997</i> ; and community notification is being undertaken in accordance with Section 7 of Mobile Phone Base Station Deployment Code C564:2018
Does it comply with Australian Standards for Electromagnetic Energy (EME)?	<p>The facility will comply with Australian government regulations in relation to emission of electromagnetic energy(EME), this specifically being Australian Standard Radiation Protection Standard – Maximum Exposure Levels to Radiofrequency Fields –3 kHz to 300 GHz, published by the Australian Radiation Protection and Nuclear Safety Agency (ARPANSA) in 2002. Further information is available at www.rfnsa.com.au</p> <p>The maximum EME level calculated for the proposed changes at this site is 0.19% out of 100% of the public exposure limit.</p>
How can I find out where the base stations are in my area?	<p>A database of all existing and proposed mobile phone base stations in Australia is available to the public at www.rfnsa.com.au</p> <p>Site specific information, can be found at: www.rfnsa.com.au/6409001</p>
Where can I find out more information?	<p>Support information about mobile phone base stations, the <i>Mobile Base Station Deployment Code (C564:2018)</i>, your rights, health, and low impact facilities, is available from this website: https://www.commsalliance.com.au/popular-links/mobile-phone-tower-information</p>
