Regarding Comment for proposed Revegetation TPLAN08
on behalf of landowner D&P York Nominees Pty Ltd

Hello Joanne,

In support of application.

We have been working with the applicant and are fully in support of the proposal. We are direct neighbours and are committing to support the project with our own investment to compliment the revegetation proposed.

Alex (applicant) as a new landowner and past member of the community is re-energising our own revegetation activities and adding another driver to our own interests in revegetating some of our degraded and saline land. Barbara York –Main was a member of our “York” family in Tammin and Simon and my Aunt. We are very happy to support the proposed Ecological Corridor which would pass through some of our land.

Cheers Tony York
