The President & Councillors  
Tammin Shire  
Tammin.

Dear M/s President and Councillors,

We Louise & Gary would appreciate the Tammin Shire Council giving due consideration to naming the South Tammin Bypass the Caffell Bypass when completed.

Looking around our shire we see so many family surnames used on local roads, which is great to see. Some to indicate the area to that family, some to perhaps thank them for their contribution to the district and shire.

The current situation with the bypass is that without Nicholas' promotion of the bypass we believe it most likely would not have got off the ground.

When first road relocations were discussed Gary was happy with option (1) which pretty much just went around the south townsite boundary. After a lot of different planning options the final one was given the go ahead primarily because Nicholas believed if the bypass was to go ahead it may as well be done properly.

It certainly doesn't help with the farming of the area with a road cutting the block in half. But Nicholas was prepared to put up with the hassles which we don't believe many other property owners would have been prepared to do.

The Caffell family have been farming in Tammin

for 5 generations, with the 3<sup>rd</sup> and 4<sup>th</sup>  
generations currently continuing our farming  
operation.

Thanking you in anticipation of your  
consideration in this matter.

Yours sincerely  
Gary & Louise Caffell.
