

# SHIRE NOTES

## Shire Library

Recently the Shire has been forced to make some changes to the operation of the Shire Library. The Shire has an expanding range of DVD's available for library members to borrow. These DVD's include recent and old movies, documentaries, kids' entertainment, episodes of a number of TV shows and much more. The disks were kept in the covers which are displayed in the library. Up until recently no problems were experienced but of late a number of disks have been taken from their covers by some person or persons. As a result DVD covers are now displayed in the library but the disks are kept behind the counter of the Shire Office. People seeking to borrow DVD's will now have to bring them to the counter and staff will then provide the disks. Membership of the library is free and there are no limits on how many times you can borrow a DVD. So if you are one of the people who have "borrowed" the disks please return them to the library. No questions will be asked. They will then be available to you and all Tammin residents to borrow from time to time.

## Genetically Modified Organisms (GMO) Trials

Thank you to all of those land holders who responded to Council's survey on GMO trials. It appears that the community is evenly divided on this matter. Thirty responses were received with 15 people in favour of GM crops and 15 against.
